

iMID 2015 Display Special Exhibition

Materials, Components and Instrument

Company Name	TAKOMA TECHNOLOGY CO., LTD.
Address	Head Office) 905, 137, Sagimakgol-ro, Jungwon-gu, Seongnam-si, Gyeonggi-do, 462-807, Korea R&D Center) 1168, Nonsanpyeongya-ro, Noseong-myeon, Nonsan-si, Chungnam, 320-922, Korea
President	Ryu, Mi Sun
Tel	+82-41-735-1770
FAX	+82-41-735-8576
Email	msryu@takomatech.com
Homepage	www.takomatech.com
Exhibitor Introduction (Within 200 words)	<p>TAKOMA is the Company for the Human and the Future Generation on this precious Planet, earth... with Wisdom and Knowledge based on the Integrity, Morality, Passion and Sincerity.....</p> <p>TAKOMA Technology is a chemical materials company specializing in research and development of key materials in various fields such as TFT-LCDs, semiconductors, OLEDs, and flexible displays.</p> <p>Establishment: June 8, 2005</p> <p>Employees: 45 (2014)</p> <p>Key Products: Photoinitiators, special binders for high performance, semiconducting materials, black millbase, OPV materials, OLED materials</p>
Exhibit Description (Within 200 words)	<p>HTL, ETL, EML product for OLED application</p> <p>Photo initiators for RGB, RBM, Overcoat and Organic insulator for photoresist application in TFT-LCD, TSP, and OLED industry.</p> <p>Special Binder and Monomer for Photoresist and for special coating solution in TFT-LCD, TSP, and OLED industry.</p>
Exhibit Product	HTL, ETL, EML products for OLED application

	<p>Photo initiators Acrylate resin, Cardo resin, PAA, SOG : Special Binder TSM, HRM : Special Monomer for TFT-LCD and Semiconducting application Special Coating Solution</p>
