

The 16th International Meeting on Information Display

August 23-26, 2016 / ICC JEJU, Jeju, Korea

Welcome To IMiD 2016

On behalf of the organizing committee of the IMiD 2016, I would like to sincerely appreciate your attention on the IMiD 2016 to be held at ICC JEJU, Jeju, Korea during August 23~26, 2016.

The IMiD has been held every year since 2001 and organized by the Korean Information Display Society (KIDS) and the Society for Information Display (SID). The IMiD has become a premier conference with more than 1,800 attendees every year, where many academic, industry, and business leaders meet, publish R&D results and share knowledge of information displays.

The conference includes keynote presentations, technical oral and poster presentations, tutorials, workshops, and special display exhibition. For every attendee, the IMiD 2016 will be not only a great opportunity to enrich their professional network, but also an excellent occasion to visit and enjoy Jeju island, one of UNESCO's World Natural Heritage sites.

The committee are especially pleased that IMiD 2016 will be held in the world-renowned resort island of Jeju, an oval-shaped volcanic island characterized by mild oceanic climate throughout the year. The island has been designated by UNESCO as a Global Geopark in 2010 for its unique geological features and scenic beauty for the world to preserve.

We are looking forward to seeing you all in Jeju, Korea in August 2016.

Thank you.

Jong Sun Choi
General Chair of IMiD 2016
President of KIDS
