

**Chan-Young Yoon** (Team Leader & Principal Research Engineer, HUD Optics Team, Hyundai Mobis)

---

Chan-Young Yoon received his B.S. and M.S. degrees from Yonsei University, Seoul, Korea in 2002 and 2004, respectively. Following the studies, he joined LG Electronics in 2004 and dedicated the next 11 years to working as an optical engineer with a focus on display technology. In 2015, he joined Hyundai Mobis, where he initially worked as a HUD optical engineer for 5 years. Currently, he is leading the HUD Optics Team, actively involved in the development of HUD mass production and HUD advanced technologies.
